## WE MAKE THE DIFFERENT FOUNTAIN

Founded in 2008, Rujira Corporation Co.,Ltd. is now a leader in the commercial water feature industry. With a long history of product innovation, design and custom manufacturing, Rujira offers a wide range of products and expert services to help you at any stage of your water feature vision. Rujira's teams are located in Thailand, the South East Asia to help ensure that your water feature connects with public and private audiences no matter the location.

We gratefully acknowledge our valued customers who contributed photography, video footage and imagery to our website; their commitment to excellence in water feature design and construction is commendable and noteworthy. Without their skills and passion, the water feature examples displayed on this website would not be as spectacular. Thank you!

This website was designed and built by the creative collective at Rujira Corp. without the help of any web company or branding specialist. It was a challenging, yet enjoyable and deeply satisfying experience for all involved, and we hope you enjoy the finished product!
